Professional Summary

Software Engineering graduate with 3+ years of experience designing, developing, and maintaining scalable web and information systems. Skilled in analyzing business requirements, implementing technical solutions, and improving system performance, security, and reliability. Strong foundation in Software Development Life Cycle (SDLC), API integration, database management, and cross-functional collaboration.

Education

Ontario Tech University

Bachelor of Engineering (B.Eng.) in Software Engineering

September 2020 – 2025

⇒ **Relevant Coursework:** Data Structures, Software Design & Architecture, Database Systems, Cloud Computing, Operating Systems, Design and Analysis of Algorithms, Software & Computer Security, Mobile Application Development

⇒ **Focus:** Information Systems, Software Development, and System Design

Experience

Web Developer

June 2022 – Present

Muslim Association of Canada - Mississauga, Ontario

- ⇒ Built and maintained 80+ WordPress websites across departments, with 85% of institutional sites created by me on macnet.ca
- ⇒ Designed and implemented scalable system architectures supporting 70+ websites across departments
- ⇒ Developed responsive, accessible web applications using HTML, CSS, JavaScript, PHP, and WordPress
- ⇒ Implemented and customized plugins and integrations, improving user engagement by 25%
- ⇒ Integrated RESTful APIs to streamline data flow between front-end and back-end systems
- ⇒ Evaluated and improved data security, access control, and system reliability across platforms
- ⇒ Developed and enforced best practices aligned with the Software Development Life Cycle (SDLC)
- ⇒ Conducted system testing, debugging, and quality assurance to ensure performance and uptime
- ⇒ Managed databases using MySQL and utilized Git for version control and collaboration

Application Developer & Support Intern

October 2021 – June 2022

Muslim Association of Canada - Mississauga, Ontario

- ⇒ Assisted in analyzing system requirements and implementing business-driven technical solutions
- ⇒ Resolved 150+ technical issues and system bugs, improving performance by 20%
- ⇒ Supported deployment and maintenance of secure and reliable information systems
- ⇒ Conducted system audits, testing, and performance evaluations to enhance software quality
- ⇒ Collaborated with IT teams to roll out new features and ensure smooth production releases

- ⇒ **Collaborative Development:** Partnered with student researchers to develop an interactive website for the University of Toronto's Student Engagement Award, enhancing user engagement and accessibility.
- ⇒ **Independent Project:** Independently designed and developed a dynamic website showcasing the experiences of Indigenous Peoples during the COVID-19 pandemic, utilizing HTML, CSS, JavaScript, and WordPress (<http://covid19digitalreview.com/>).
- ⇒ **Interactive Features:** Implemented an interactive world map feature, enabling users to click on various countries to access dedicated web pages with detailed information, significantly improving user interaction and educational value.

- ⇒ Delivered workshops on career readiness, professional communication, and workplace skills to groups of 20+ students
- ⇒ Provided one-on-one mentorship to students, helping improve resumes, interview performance, and job search strategies
- ⇒ Facilitated group sessions, coordinated program activities, and supported marketing initiatives to strengthen student engagement, students' communication, teamwork, and problem-solving skills, and participation

Systems & Business Analysis Experience

- ⇒ **System Integration:** Connecting multiple systems and APIs to ensure seamless data exchange and functionality
- ⇒ **Data Analysis:** Interpreting system data to support decision-making and performance improvements
- ⇒ **Requirements Gathering:** Translating business needs into technical solutions
- ⇒ **Information Systems Design:** Building scalable and efficient systems
- ⇒ **Security & Risk Assessment:** Identifying vulnerabilities and improving system protection
- ⇒ **Quality Assurance:** Testing, debugging, and validating system performance
- ⇒ **SDLC:** Experience across planning, development, testing, and deployment phases
- ⇒ **Troubleshooting & Support:** Diagnosing and resolving system issues to maintain reliability and uptime

Technical Skills

- ⇒ **Languages:** Python, Java, C/C++, JavaScript, SQL, Bash
- ⇒ **Web Development:** HTML, CSS, React, Node.js, PHP
- ⇒ **Frameworks:** Django, Flask, Express.js, Bootstrap
- ⇒ **Databases:** MySQL, MongoDB, SQLite
- ⇒ **Tools & DevOps:** Git, GitHub, Jenkins, Maven, Kubernetes
- ⇒ **CMS:** WordPress, Plugin Integration
- ⇒ **Methodologies:** Agile, Scrum, SDLC
- ⇒ **Business & Systems:** System Analysis, API Integration, QA Testing, Documentation
- ⇒ **Cloud & Tools:** MS Office Suite, Webex, Zoom, Google Meet, Teams; familiar with Agile/Scrum, API integration, QA testing.

Professional Skills

- ⇒ **Project Management:** Team coordination, budgeting, and event planning.
- ⇒ **Problem-Solving & Research:** Analytical, innovative, and goal-oriented.
- ⇒ **Communication & Collaboration:** Strong verbal and written skills for technical and non-technical audiences.
- ⇒ **Leadership & Mentorship:** Training peers, onboarding staff, and guiding students.
- ⇒ **Adaptability:** Thrives in fast-paced, evolving environments.

Extracurricular Activities

- ⇒ **Vice President of Internal Affairs:** Muslim Students Association September 2022 – September 2023
- ⇒ **Director of Events:** Muslim Students' Association September 2021 – September 2022
- ⇒ **Director of Events:** Islamic Relief September 2023 – September 2024
- ⇒
- Member:** Ontario Tech Engineering Society, Ontario Tech Computer Science Club, Islamic Relief, Muslim Students' Association September 2020 – September 2024
